<https://www.indiamart.com/micro-engineers-ahmedabad/>

We are engaged in manufacturing, and exporting a comprehensive range of Plant Gearbox, Worm Reduction Gearbox, Industrial Gearbox, Reduction Gearbox etc. All our products are used in various industries like ceramic, cement and mining.

About Us

Established in the year **1989**, we, "**Micro Engineers**", are one of the leading organizations engaged in **manufacturing** a comprehensive collection of All Types of Gearboxes & Conveyor Accessories. Our range encompasses Worm Gearbox, Industrial Gears and Gear Reducer. All our products are marketed under the brand name of '**Mecon Gears**'. These products are manufactured using high grade raw material like alloy steel, phosphorus bronze, stainless steel and cast iron that are sourced from the reliable vendors of the market. In addition to this, our products are widely appreciated by the customers due to their longer functional life, corrosion & abrasion resistance, dimensional accuracy and sturdy construction. These products are widely used in various industries like mining, stone crushing, cement, ceramic, paper & pulp, chemical, iron & steel, plastic & rubber, textile and mineral. Our products are also used in quarry plants, material handling equipments and conveying equipment for the aggregate.

Our mission to attain total client satisfaction by means of providing best products and after sales services has enabled us to build a vast client base across the globe. Apart from this, our commitment to value and excellence further encourages continuous corporate and employee improvement, development and motivation in order to ensure the long term growth, stability and profitability of the company. For this, we have...
